

IEEE Proceedings Order Plans

Innovative Technologies are Introduced at IEEE Conferences

IEEE Proceedings Order Plans Deliver

Give your research the edge with IEEE Proceedings Order Plans (POP and POP All)

- The very latest, cutting-edge papers from over 850 annual IEEE conferences
- Research available first, usually months in advance of the leading journals
- Wide breadth of content in technical areas ranging from computer engineering, biomedical technology and telecommunications to electric power, aerospace and consumer electronics
- Quality—most IEEE conferences follow a paper selection process and many have a peer-review process
- More than 880,000 papers available in the POP All Online collection
- Weekly updates—hundreds of new papers added each week
- Unlimited full-text access to IEEE conference proceedings

Choose from two IEEE Proceedings Order Plans

IEEE Proceedings Order Plan (POP)

Unlimited full-text online access to the core online collection of IEEE-published conference proceedings—125 current annual conferences with a 10 year backfile

IEEE Proceedings Order Plan All Online (POP All Online)

Unlimited full-text online access to all IEEE-published conference proceedings—more than 850 current annual conferences with a 10 year backfile

Some of the Newest IEEE Conferences*

- International Conference on Gas Discharges and their Applications
- International Conference on Prognostics and Health Management
- IEEE Silicon Nanoelectronics Workshop
- IEEE/OES US/EU- Baltic International Symposium
- Proceedings of the EPE Wind Energy Chapter Seminar
- IEEE International Workshop on Imaging Systems and Techniques
- European Wireless Conference
- International Workshop on Signal Processing for Space Communications
- IAPR Workshop on Pattern Recognition in Remote Sensing
- Cairo International Biomedical Engineering Conference
- IFIP Wireless Days (WD)
- International Symposium on Turbo Codes and Related Topics
- IEEE Internet Network Management Workshop

Celebrating 125 Years
of Engineering the Future

Quality. Depth. Value. Essential Information from IEEE.

IEEE publications provide quality, depth and value to your electrical engineering and computing collection. IEEE online collections deliver:

- IEEE periodicals and conference proceedings that define the field —the content your researchers need
- Research that is cited in patents more than any other publisher
- Top cited journals in many fields according to Thomson ISI
- Nearly 2 million documents

Get instant, full-text access to the research you need directly to your desktop with a subscription to IEEE online publications.

IEEE Conference Proceedings Offer Breadth of Content

IEEE publishes the proceedings of over 850 conferences a year, more than 16 a week. Each volume is packed with timely knowledge that enables engineers, students and researchers to take advantage of the latest methodologies and applications shaping industry today, in topics such as:

- Acoustics
- Aerospace
- Biotechnology
- Biometrics
- Communications
- Computer Hardware
- Energy
- Geoscience
- Information Technology
- Information Systems
- Materials
- Nuclear Science
- Optics
- Power Systems
- Radiology
- Remote Sensing
- Software Design
- Storage Systems
- Transportation
- Web Applications
- Wireless

"IEEE *Xplore* is to me one of the most important and valuable benefits that IEEE has ever brought not only to our users but to our industry. In our business, saving time in any way you can is critical. Access to IEEE articles and papers is key in this regard."

IEEE POP Online Brings You Added Features and Functionality

- Full-page PDF image access
- INSPEC® bibliographic records
- Weekly updates
- 10 year backfile
- OPAC linking
- Subscription identifier
- Reference linking to all IEEE journals
- Intuitive IEEE *Xplore*® digital library with multiple options for searching
