

IEEE Power & Energy Library

Authoritative Information for Innovative Organizations

IEEE Power & Energy Library Delivers

- Affordable access to IEEE information
- Focused, efficient searching and browsing of power-specific documents
- Full-text access to any IEEE journal, magazine, transaction or conference proceeding—nearly 2 million documents
- Complete backfile to 1988, plus select content back to 1913
- INSPEC® bibliographic records for all publications
- Online filing cabinet for rapid collaboration

 - Level 3: 1,750 article downloads—US\$17,495

Quality. Depth. Value. Essential Information from IEEE.

IEEE publications contain research of quality, depth and value. A subscription to the IEEE Power & Energy Library provides:

- IEEE periodicals and conference proceedings that define the field—the content your organization needs
- Information from the foremost provider of global standards in power and energy
- Top-cited journals in the field (Journal Citation Report, Thomson ISI)
- Nearly 2 million documents, including 75,000 specifically in power and energy technologies

Get instant, full-text access to the research you need with a subscription to the IEEE Power & Energy Library.

“The IEEE Power & Energy Library will help accelerate my organization’s product development work.”

Who Benefits from the IEEE Power & Energy Library?

- Electric Utilities
- Power Equipment Manufacturers
- Process Industries
- Power Economists
- Project Managers
- Consultants
- Research & Development Teams
- Patents & Intellectual Property Groups

The Latest Information in Power & Energy Technologies:

- Electronic Devices
- Control and Regulation
- Converter Topologies
- Magnetic Components
- Packaging
- Motor Control
- Power Generation
- Power Transmission
- Power Distribution
- Power Conversion
- Power Measurement
- Electrical Systems
- Apparatus
- Devices and Controls
- Reliability
- Energy Conservation
- Environmental Health and Safety

Benefits of Subscribing to the IEEE Power & Energy Library

- **Instant article access**—no more waiting for document delivery services
- **Tomorrow's research first**—access the leading journals and cutting-edge conferences
- **Competitive access**—affordable access to the same information used by today's most innovative power and energy organizations and your top competitors
- **Rapid collaboration**—share an article with your entire organization by downloading once to an online filing cabinet
- **Easy to use**—intuitive user interface minimizes training time

Patent References from the Top 25 Patenting Organizations to Top Publishers

New patents cite IEEE-published science more often than any other scholarly and commercial publisher.

Patent references to IEEE papers have increased 294 percent in the last decade.
