

IBM Journal of Research and Development

IEEE *Xplore*[®] Digital Library Subscription Option

Take advantage of the industry's best information systems research

IEEE and IBM have partnered to offer expanded access to the highly regarded *IBM Journal of Research and Development*, which includes the *IBM Systems Journal*. Both peer-reviewed technical journals are leaders in the science, technology, and engineering of information systems.

IBM Journal of Research and Development delivers key benefits for your research team:

- **Drive new ideas**, designs, and applications with cutting-edge research
- **Develop better solutions faster** by understanding the technology landscape
- **Increase productivity** by reviewing previous research so you don't reinvent the wheel
- **Accelerate innovation and patent development** with convenient access to proven research all in one place
- **Increase scholarly output** and new research development
- **Stay ahead of the technology curve** with the latest publications

Comprehensive coverage of information systems research

IBM Journal of Research and Development features the works of authors in science, technology, and engineering of information systems. Papers are written for the worldwide scientific research and development community and knowledgeable professionals. A sample of topics covered:

- Circuits
- Cloud Computing
- CMOS
- Data Preservation
- Deep Computing
- Environmental Challenges
- Spintronics
- Systems Biology
- Virtual Appliances and more...

IBM Journal of Research and Development Quick Facts

Access the industry's most respected information systems research:

Unlimited, full-text access to the *IBM Journal of Research and Development*

Complete backfiles of two prestigious IBM journals:

- *IBM Journal of Research and Development* (from 1957)
- *IBM Systems Journal* (1962–2008)

Over 6,000 documents total

IBM Journal of Research and Development is one of the top-cited journals in Computer Hardware and Software. Together the two IBM Journals are referenced in over 2,800 patent citations.

Source: 2010 Thomson Reuters Journal Citation Report, published June 2011 and 1790 Analytics 2011

IBM Journal of Research and Development 2012 annual subscription price: US\$1,095 (single site)

Pricing listed above is for a single customer site. Please note that pricing can vary based on the number of authorized users and sites. Contact IEEE for a custom quote.

Access respected technology research that generates results

IEEE Xplore includes top-ranked journals and technology research that is cited in patents nearly three times more than the nearest competitor. With over 3 million full-text articles and papers, IEEE Xplore is your gateway to more than 30% of the world's current literature in electrical engineering, electronics, and computer science.

Find relevant research faster with powerful search tools

IEEE Xplore combines an easy-to-use interface with powerful search tools that make finding relevant research faster and more streamlined.

Search: Intelligent features such as convenient type-ahead, a functional search breadcrumb trail, and a "Refine/Expand Results" module lets you modify and find results easier than ever before.

Personalize: You can also personalize IEEE Xplore to create targeted saved searches and receive e-mail alerts or RSS feeds of new content updates.

IEEE Xplore also provides:

- Basic, Advanced & Command search options
- IP and Shibboleth/Athens authentication
- INSPEC® abstract/citation and bibliographic records
- Persistent links (OPAC)
- Weekly content updates

Get the latest research in a wide range of technologies:

- Aerospace and Defense
- Biometrics
- Computer Hardware and Software
- Electronics
- Medical Devices
- Nanotechnology
- Optics
- Power Engineering
- Robotics
- Semiconductors
- Telecommunications
- Wireless Technology and more!
