

# Biomedical Engineering & Medical Device Organizations

## Innovate with IEEE Information

Whether you're researching artificial intelligence, gene expressions, medical imaging or any other biomedical technology, IEEE is your gateway to the most vital information in the industry today. With the intuitive IEEE *Xplore*® digital library, you'll find the journal articles, conference proceedings and standards needed to lead biomedical innovation—and boost your company's bottom line.

### IEEE Information Drives Biomedical Patents

Today's corporations deliver new patented technologies at an ever-increasing pace—with research that is at the forefront of the biomedical engineering industry. IEEE is one of the top three cited publishers in medical device patents, with proven research you can't find anywhere else.

Patent references to IEEE papers have increased 261 percent since 1997 and recent studies of the top patenting companies show that **IEEE scientific and technical articles are cited over 3.5 times more often than any other scholarly or commercial publisher.**

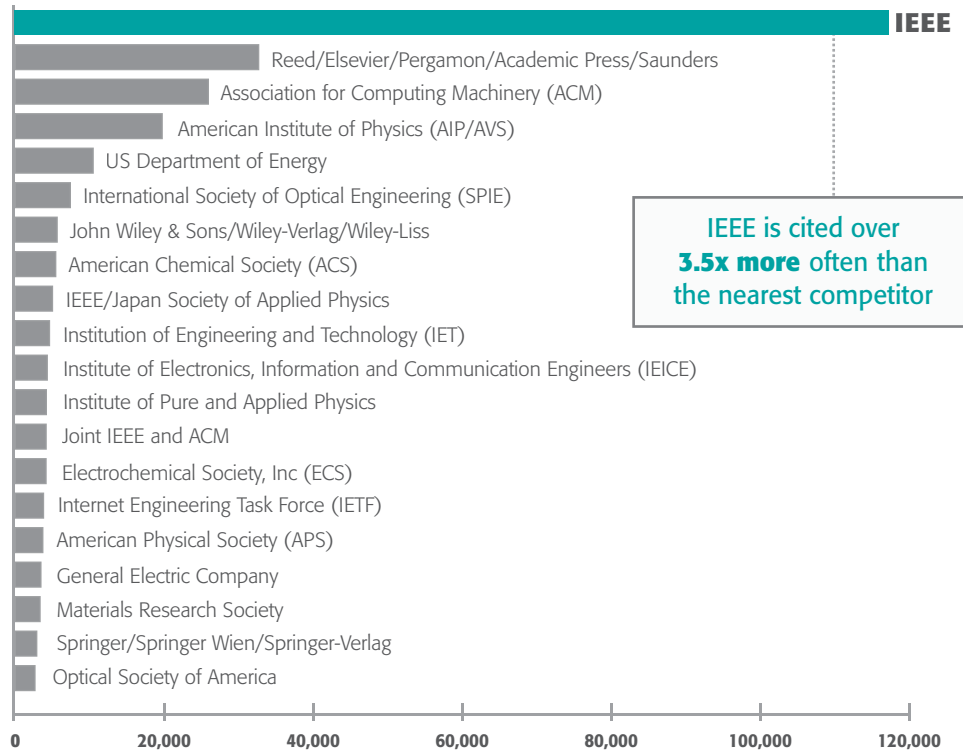

**4 of the top 10** medical device companies subscribe to IEEE *Xplore*.

## The IEEE Xplore® Digital Library

Find a subscription that's right for you—from tailored journal collections to the entire research catalog—with the IEEE Xplore digital library. Along with IEEE journals, magazines, conferences and standards; IET journals and conferences; and select AIP/AVS journals, IEEE Xplore delivers:

- The world's most highly cited journals in technology
- More than 2 million full-text documents
- Full-text, searchable PDFs for all documents
- Full INSPEC abstract and citation records
- Weekly content updates—15,000+ new articles every month
- Multiple search options
- Interactive reference linking
- Free e-mail alerts

## IEEE Publishes Key Titles in Biomedical Engineering & Medical Device Technology

IEEE publishes *IEEE Transactions on Medical Imaging*, the **#1 journal in Imaging Science & Photographic Technology** and the **#3 journal in Biomedical Engineering**.

Other key IEEE titles in the biomedical field include:

- IEEE Transactions on Haptics*
- IEEE Transactions on Autonomous Mental Development*
- IEEE Engineering in Medicine & Biology Magazine*
- IEEE Transactions on Information Technology in Biomedicine*
- IEEE Transactions on Neural Systems and Rehabilitation Engineering*
- IEEE Transactions on Biomedical Engineering*
- IEEE Reviews in Biomedical Engineering*
- IEEE/ACM Transactions on Computational Biology & Bioinformatics*

## More Essential IEEE Content in Biomedical Engineering

Today's medical devices rely on the latest developments in signal processing, imaging, robotics, sensors and other quickly developing technologies. IEEE content remains crucial to the biomedical industry—providing research in a wide variety of biomedical and medical device topics through the IEEE Xplore digital library.

Artificial and Computational Intelligence	108,000+ documents
Magnetic Resonance Imaging	23,600+ documents
Gene Expressions/Regulations	5,600+ documents
Cellular Systems	19,300+ documents
Medical Databases/Information Systems	3,800+ documents
Bioinformatics/Bioengineering	28,400+ documents
DNA	16,400+ documents
Biotechnology	7,100+ documents
Medical Imaging	44,100+ documents
Telemedicine	5,400+ documents

Counts current as of May 2009

## Vital Standards for the Biomedical Engineering and Medical Devices Industries

IEEE is a leading developer of standards in a broad range of industries, including biomedical engineering and medical devices. The IEEE Standards Association has strategic relationships with important standards organizations around the world, offering more paths to international standardization.

## Popular IEEE Standards in Biomedical Engineering and Medical Devices

11073-10441 2009

Health Informatics—Personal Health Device Communication

IEEE STD 602–2007

IEEE White Book™: Recommended Practice for Electric Systems in Health Care Facilities

C95.6–2002

IEEE Standard for Safety Levels with Respect to Human Exposure to Electromagnetic Fields, 0–3 kHz
