

# IEEE Computer Society Digital Library

*The Premier Collection of Computing Periodicals and Conferences*

## IEEE Computer Society Digital Library Delivers

IEEE Computer Society publications cover the complete spectrum of computing and deliver the highest quality, peer-reviewed content available to users.

- Unlimited full-text access to over 265,000 top quality computing articles and papers
- 26 peer-reviewed periodicals with all available archives
- Over 200 annual conference proceedings titles, with a backfile to 1995
- The most highly-cited journals in the field
- Convenient desktop access for all users in your organization

## Superior Features and Functionality

- Multiple options for browsing and searching
- Content/abstract alerts via RSS feed
- Monthly 'What's New' e-mail highlighting new content and services
- ACM metadata exchange allows searches across both collections
- Download citations in multiple formats
- Linked author names provide other articles by that author
- Daily updates, including Preprints and Rapid Posts for transactions
- OPAC linking, interactive reference linking, and openURL and XML gateway compatibility

***"The technical details and clarity of the articles are beyond anything I've seen available elsewhere."*** —Sun Microsystems Engineer

### Technical Magazines

- Computer
- Computing in Science & Engineering
- IEEE Annals of the History of Computing
- IEEE Computer Graphics and Applications
- IEEE Design & Test of Computers
- IEEE Intelligent Systems
- IEEE Internet Computing
- IEEE Micro
- IEEE MultiMedia
- IEEE Pervasive Computing
- IT Professional
- IEEE Security & Privacy
- IEEE Software

### Research Journals

- IEEE Computer Architecture Letters
- IEEE/ACM Transactions on Computational Biology and Bioinformatics
- IEEE Transactions on Computers
- IEEE Transactions on Dependable and Secure Computing
- IEEE Transactions on Haptics
- IEEE Transactions on Knowledge and Data Engineering
- IEEE Transactions on Mobile Computing
- IEEE Transactions on Parallel and Distributed Systems
- IEEE Transactions on Pattern Analysis and Machine Intelligence
- IEEE Transactions on Services Computing
- IEEE Transactions on Software Engineering
- IEEE Transactions on Visualization and Computer Graphics
- IEEE Transactions on Learning Technologies

## Subscribe to the IEEE Computer Society Digital Library

- Over 265,000 top quality computing articles and papers
- Personalized welcome notice on search pages
- Abstract references link to IEEE Computer Society, IEEE and ACM digital library content
- 'More like this' feature helps you find related information
- Expanded Archives

## Fast and Simple to Use

- Access is IP-address controlled—no passwords to remember
- PDF format for easy downloading and printing of articles
- Most periodicals also available in HTML for easy online review
- DOIs for easy, permanent bookmarking

## Five Reasons to Subscribe

- Access the leading journals and proceedings in computer science
- Quality of content—CSDL includes the top-cited journals in the field
- The leading peer-reviewed publications in the field
- Unequaled value
- Powered by the CSDL electronic delivery platform on [www.computer.org](http://www.computer.org)

"Through its sponsorship of highly regarded technical conferences, topical meetings, outstanding peer-reviewed scientific publications, industry-shaping standardization committees and dedication to all of its members, IEEE has become the leading organization devoted to the advancement of technology and support of the global engineering community."

**Dr. Marc Verdiell**  
Intel Fellow, Director, Optical  
Technology Office Intel/OPD

## Conduct Complete Research with Advanced Search Features:

- **Appearing In**—specify where your search terms should be found
- **Sort By**—display your search results by relevance, date, publication title, conference acronym, or ISBN/ISSN
- **Results Per Page**—specify how many results will appear per single page
- **Date Range**—specify a range of month and year of publication in which to search
- **Include Summary**—allows you to include short article summaries in your search results
