IEEE CONTROL SYSTEMS AWARD
RECIPIENTS

2021 – HIDENORI KIMURA
Vice Director, Systems Innovation Center, Tokyo, Japan
“For contributions to synthesis theory of control systems and its applications to manufacturing devices and systems.”

2020 – ANDERS LINDQUIST
Zhiyuan Chair Professor, Shanghai Jiao Tong University, Shanghai, China
“For contributions to optimal filtering, stochastic control, stochastic realization theory, and system identification.”

2019 – PRAMOD KHARGONEKAR
Vice Chancellor for Research and Distinguished Professor, University of California, Irvine, California, USA
“For contributions to robust and optimal control theory.”

2018 – JOHN TSITSIKLIS
Clarence J. Lebel Professor of Electrical Engineering, Massachusetts Institute of Technology, Cambridge, Massachusetts, USA
“For contributions to the theory and application of optimization in large dynamic and distributed systems.”

2017 – RICHARD M. MURRAY
Everhart Professor of Control & Dynamical Systems and Bioengineering, Caltech, Pasadena, California, USA
“For contributions to the theory and applications of nonlinear and networked control systems.”

2016 – ARTHUR J. KRENER
Research Professor, Naval Postgraduate School, Monterey, CA, USA
“For contributions to the analysis, control, and estimation of nonlinear control systems.”

2015 – BRUCE FRANCIS
Professor Emeritus, University of Toronto, Toronto, Ontario, Canada
"For pioneering contributions to H-infinity, linear-multivariable, and digital control."

2014 – TAMER BASAR
Swunlund Endowed Chair and CAS Professor of Electrical and Computing Engineering, University of Illinois, Urbana-Champaign, Urbana, IL, USA
“For seminal contributions to dynamic games, stochastic and risk-sensitive control, control of networks, and hierarchical decision making.”

2013 – STEPHEN P. BOYD
Samsung Professor of Electrical Engineering, Stanford University, Palo Alto, CA USA
“For contributions to systems design and analysis via convex optimization.”
IEEE CONTROL SYSTEMS AWARD
RECIPIENTS

2012 - ALBERTO ISIDORI
Professor of Systems and Control,
University of Rome, Sapienza,
Rome, Italy
“For pioneering contributions to nonlinear control theory.”

2011 - EDUARDO D. SONTAG
Professor II of Mathematics,
Rutgers University
Piscataway, NJ USA
“For fundamental contributions to nonlinear systems theory and nonlinear feedback control.”

2010 – GRAHAM CLIFFORD GOODWIN
Prof & Dir ARC Center of Excellence in Complex Dynamic Sys & Control
Univ of Newcastle
Callaghan, NSW, Australia
“For contributions to the theory and practice of digital and adaptive control.”

2009 – DAVID Q. MAYNE
Emeritus Professor of Control Theory and Senior Research Fellow,
Imperial College, London, England
“For contributions to the application of optimization to modern control theory.”

2008 - MATHUKUMALLI VIDYASAGAR
Executive Vice President, Tata Consultancy Services, Hyderabad,
India
“For promulgation of control science and engineering and contributions to robust control, robotics and statistical learning theory”

2007 – LENNART LJUNG
Professor, Department of Electrical Engineering, Linkopings Universitets,
Linkoping, Sweden
“For seminal contributions to system identification and its impact on industrial practice.”

2006 - P.R. Kumar
Franklin W. Woeltge Professor of Electrical and Computer Engineering, University of Illinois,
Urbana-Champaign, Urbana, IL
“For contributions to adaptive control, manufacturing systems and wireless communications.”

2005 – MANFRED MORARI
Professor and Head of Automatic Control Laboratory, Eth Zurich, Switzerland
“For pioneering contributions to the theory and application of robust process, model predictive, and hybrid systems control.”

2004 – JOHN DOYLE
Professor, Dept of EE
California Inst of Technology
Pasadena, CA USA
“For fundamental contributions to the analysis and control of uncertain systems.”
IEEE CONTROL SYSTEMS AWARD
RECIPIENTS

2003 - NIKOLAI NICOLAEVICH KRASOVSKI
Principal Researcher, Professor, Technical University of Ural, Russia

"For pioneering contributions to the theories of stability, control, and differential games."

2002 – PRAVIN VARAIYA
University of California at Berkeley
Berkeley, CA USA

"For outstanding contributions to stochastic and adaptive control and the unification of concepts from control and computer science."

2001 - KEITH GLOVER
University of Cambridge
Cambridge, UK

"For pioneering and fundamental contributions to robust controller design and model order reduction."

2000 – SANJOY K. MITTER
Professor
Massachusetts Institute of Technology (MIT)
Cambridge, MA USA

"For contributions to optimization, optimal control, and nonlinear filtering, and for interdisciplinary research that has expanded the boundaries of control theory."

1999 - A. STEPHEN MORSE
Yale University
New Haven, CT USA

"For pioneering the geometric approach to linear multivariable control synthesis and contributions to nonlinear and adaptive control theory."

1998 - JAN C. WILLEMS
University of Groningen
Groningen, The Netherlands

"For seminal contributions to control theory and leadership in systems research."

1997 - BRIAN D. O. ANDERSON
Australian National University
Canberra, Australia

"For contributions in the areas of adaptive and optimal control, stability, and system identification."

1996 - VLADIMIR A. YAKUBOVICH
St. Petersburg University
St. Petersburg, Russia

"For pioneering and fundamental contributions to stability analysis and optimal control."

1995 - PETAR V. KOKOTOVIC
University of California
Santa Barbara, CA USA

"For pioneering contributions to singular perturbation theory, adaptive systems, nonlinear controls, and their industrial applications."

1994 - ELMER G. GILBERT
University of Michigan
Ann Arbor, MI USA

"For pioneering and innovative contributions to linear state space theory and its applications, especially realization and decoupling, as well as to control algorithms."
