

# IEEE Certificates Program

Reach more professionals and add more practical advantages to your meetings by partnering with IEEE.

## Turn meetings into educational experiences

As rapid changes in technology compel engineers to update their technical knowledge, and as licensing for engineers becomes an increasingly important issue, many engineers are seeking access to training programs that offer professional or educational credits.

By teaming up with the IEEE Certificates Program for your talks, programs, tutorials, and short courses at your next meeting or event, you can offer your attendees a way to stay current, expand their knowledge base, and increase opportunities for career advancement.

Participants and attendees of IEEE sponsored events can earn:

- Continuing Education Units (CEU)
- Professional Development Hours (PDH)
- Certificates of Participation
- Recognition for their time and hard work

### IEEE Certificates Program fees

- For information on pricing, please email **eab-ceuadmin@ieee.org**

### Register your continuing education activities today!

All applications are accepted online and approved via e-mail.

Start offering CEUs by completing an application at:

[www.ieee.org/go/ceus-application](http://www.ieee.org/go/ceus-application)

"IEEE's Continuing Education resources help me meet my employer's training requirements."

—Technology engineer

### Continuing education formats that works for your attendees

- The IEEE Certificates Program offers several methods of continuing education:
- IEEE conferences and their workshops
- Technical Societies offered tutorials, technical programs, short courses and workshops
- Sections and Chapters sponsored lectures and short courses
- Classroom Lectures
- Seminars
- Laboratories
- Study networks
- IEEE eLearning Library online tutorials available through IEEE Xplore®
- Other online delivery methods
- Independent study
- Broadcast programming
- Videotaped/CD-ROM material

visit us at [www.ieee.org/ceus](http://www.ieee.org/ceus) or e-mail us at [eab-ceuadmin@ieee.org](mailto:eab-ceuadmin@ieee.org)

# IEEE Certificates Program

## Nationally recognized methods of learning

All programs that partner with IEEE are able to offer Continuing Education Units, Professional Development Hours or Certificates of Participation for meetings, talks or courses.

- Continuing Education Units (CEUs), the standard of excellence for continuing education programs in IEEE's fields of interest, are awarded for approved courses that utilize instructional, assessment, and evaluation methods in instruction of the course. All three methods are required for CEUs to be awarded.
- Professional Development Hours (PDHs) are awarded for courses that often utilize instructional, assessment, and evaluation methods, but are not required to do so. 10 PDHs = 1 CEU.
- Certificates of Participation are awarded for approved courses that want to involve IEEE as part of the overall learning activity without offering any quantifiable unit.

## Continuing Education Units through IEEE

The IEEE Educational Activities Board has approved IEEE Educational Activities as an authorized provider of IEEE Certificates. In obtaining this approval, IEEE Educational Activities has demonstrated that it complies with the highest standards of continuing education. IEEE Continuing Education Programs are peer-reviewed by content experts, ensuring quality of the technical content of learning materials, as well as adherence to IEEE's strict criteria for educational excellence.

The IEEE Continuing Education Providers Program, exclusive for IEEE members, offers a 10% discount on continuing education, certificate and graduate degree courses.

## Education, careers, and more

IEEE offers a variety of learning, career enhancement, and employment opportunities in the engineering, research, and other technology sectors.

The goal of these programs is to advance the skill and knowledge of professionals and foster a commitment to continuing education among IEEE members, the engineering community, and the general public.

See all the opportunities at [www.ieee.org/education](http://www.ieee.org/education)

### IEEE Continuing Education Products & Services

- Certificate programs
- Professional development training and courses
- Conference workshops
- Enrichment courses
- Learning activities

"Year after year, I maintain my professional license by taking courses offered through the IEEE Continuing Education Providers Program."

—IEEE Senior Member,  
Technology engineer
