

How do I View and Print a Certificate?

Overview

Certificates may be offered after a course to show proof of successful completion. These certificates may attest to participation, or can offer credits such as Continuing Education Units (CEUs) or Professional Development Hours (PDHs).

Courses that award credits will include assessments. Learners must achieve a passing score before earning credit and a certificate.

NOTE: If the course you have successfully passed does not display a **View Certificate** button, return to the *Course Details* page and complete the associated post course survey.

Finding Certificates

Earned certificates may be viewed and printed from either the **Completed Training** section of the *ILN* home page or the *Transcript* page. The steps to view and print are identical from either option.

NOTE: If an electronic (softcopy) version of the certificate is needed, click the **Print** link and select the **Print to PDF** option (if available) from the Printer list.

Completed Training

The **Completed Training** section only displays a maximum of 5 courses. If the course does not display on the list, click the **View All** button located below the list to navigate to the *Transcript* page.
