

How do I search for courses in the IEEE Learning Network (ILN)?

Overview

The IEEE Learning Network (ILN) has a robust browse and search feature to help you find courses of interest. The search can be easily accessed from all pages within the portal.

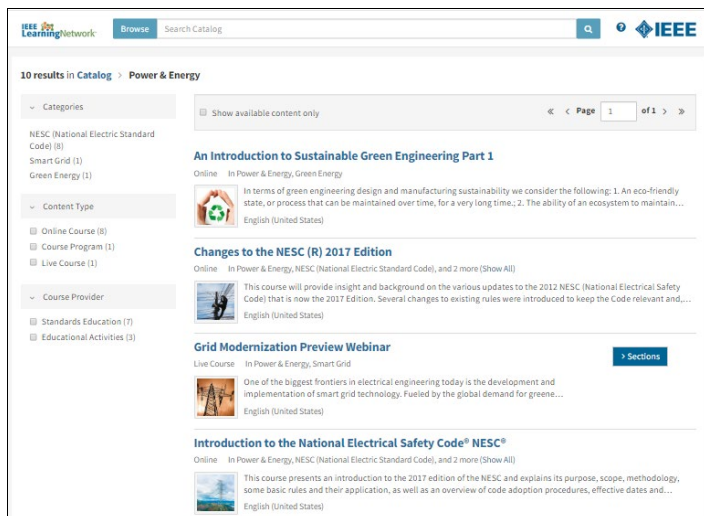

Guest Public Catalog Browse

Guests who are not logged into ILN will be presented the Public Catalog.

ILN Public Catalog page including featured topic tiles

The Public Catalog includes a **Featured Topics** section that provides quick access to all learning resources on the area of interest. To perform a quick search, click the tile of interest to display the search results for that topic.

Searching in ILN

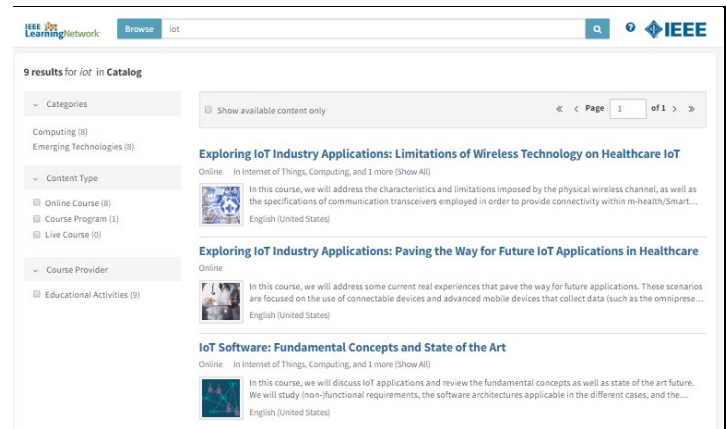

Searches are performed in ILN by entering a key word(s) or phrase into the **Search Catalog** field.

ILN search Catalog field

Complete the field and click the **Search** (magnifying glass) icon to display the search results.

NOTE: Clicking the **Search** icon with a blank (empty) **Search Catalog** field will result in a wildcard search, returning all available items in the catalog.

ILN search return example

The list of Search Results can be filtered to refine the list. Filter options include:

- **Categories**
- **Content Type**
- **Course Provider**

NOTE: The number next to each filter option indicates how many items in your search results are associated with that option. You may apply more than one filter at a time, however your search results update after every selection.

To remove a **Category** filter, click the **Catalog** link above the Filter Pane to return to the original Search Results.

The selected **Content Type** and **Course Provide** filters display at the top of your Search Results. To remove filters, click the **Clear (X)** icon beside the filter option OR deselect the checkbox in the Filter Pane.

Click the **Clear All** link at the top of the page to remove all selected filters.
