How I Benefit From IEEE, Skyler Nix, Ft. Huachuca (USA) Section:

“When many people hear about the benefit of “networking” they picture awkward conversations around the breakfast buffet at a conference. I have found that listening to senior members’ experiences and advice has made a difference for me personally and professionally. The engineering world is relatively small, and solutions for one individual or organization can often be applied to others. The mentorship and learning opportunities provided by my membership are numerous and high-quality. In 2015 there were IEEE sponsored conferences on cyber relations with China, the utilities industry in SE Arizona, Scrum/Agile, and others. The Ft. Huachuca section also enjoys healthy relationships with local academic organizations including the University of Arizona South. If anyone wants to learn about other industries or switch careers, there is no better place to start than the IEEE network.

I believe professionals in technology fields should join IEEE to help themselves and the community. With competition for the best jobs increasing every year, companies value employees who have relationships with the local community and hone their technical skills outside of work hours. It is also important to understand how protocols and frameworks are utilized to develop, maintain, and test electronic/IT systems. IEEE members are uniquely positioned to provide the innovative solutions needed in technical industries going forward. In addition to the human networks that can be tapped for advice or assistance, there are many web resources with special access just for members. I have been very lucky to represent the Ft. Huachuca section by volunteering for the Boys and Girls Club of Sierra Vista and the Air Force Association Cyber Patriot competition. The people I meet in volunteer activities make the effort well worth it....”

d.maestri@ieee.org
Member and Volunteer Engagement Manager
IEEE at a Glance

Who our members are

- Engineers, scientists and allied professionals whose technical interests are rooted in electrical and computer sciences, engineering and related disciplines
- 400,000+ members globally: 300,000+ professionals, 100,000+ students
- 160+ countries, 334 local Sections in ten geographic Regions
- Private sector, academia, government
- IEEE publishes a third of the world’s technical literature in electrical engineering, computer science and electronics
- [www.ieee.org/about](http://www.ieee.org/about)
IEEE Mission

IEEE's core purpose is to foster technological innovation and excellence for the benefit of humanity.
IEEE Awards Program
IEEE AWARDS PROGRAM

What Are We Responsible For?

- Recognizing the innovators and the innovations in our fields that have impacted the world
- Administering the nomination and selection process of IEEE's highest awards presented on behalf of the IEEE Board of Directors (Medals, Recognitions, Technical Field Awards)
What Are IEEE-Level Awards?

Every year, on behalf of the IEEE Board of Directors, the Awards Board and its 500+ volunteers handle the evaluation, selection, and presentation of more than 60 awards

**IEEE-Level Awards Portfolio Consists of:**

- **Medals** (16)—IEEE’s highest awards
- **Recognitions** (10)—Awarded for corporate innovations, managerial leadership, service to IEEE, outstanding papers/publications
- **Technical Field Awards** (33)—Awarded for contributions or leadership in specific fields of interest of the IEEE

Nominations can be submitted at [ieee.org/awards](http://ieee.org/awards)

Recipients are selected by expert committees and are endorsed by the Awards Board, with final approval by the IEEE Board of Directors.

*Presented at the IEEE Honors Ceremony
**Presented at IEEE conferences throughout the year

Information and Deadlines: https://www.ieee.org/about/awards/index.html
Get Involved with the Awards Program—Volunteers Wanted

The IEEE Awards Program relies on the time and expertise of dedicated volunteers from around the world.

- Serve on a Selection Committee
  - Email awards@ieee.org with your CV and the name of the award committee on which you are interested in serving
  - Selection committees work via email and hold 3 teleconferences per year
- Detailed role descriptions about all opportunities to participate are available on the Awards Board Nominations and Appointments Committee webpage
  - Visit https://www.ieee.org/about/awards/boards_committees/49249_abna.html to become a volunteer
- Nominate a colleague or a company
- Suggest hot topics or industry partners for the IEEE VIC Summit (visit ieee-vics.org)

Contact the IEEE Awards Staff:

➤ Learn about benefits, members-only discounts and programs
  - www.ieee.org/benefits
IEEE Collabratec is an integrated multi-functional platform & online community, which leverages IEEE’s knowledge base of content and people in the areas of technology and science, allowing you, the user, to enhance productivity and increase the potential for your success, including:

- Accessing & Building a Global network of peers
- Streamlining discovery processes
- Promoting concepts, papers & events
- Collaborating on areas of interest
- Facilitating authoring capability

IEEE members have enhanced capability and exclusive benefits.
What Can You Do Inside IEEE Collabratec?

✓ Connect to a global network of engineers, programmers and technologists who share your passions in the latest trends of science and technology

✓ Access, as IEEE members, to potentially 400,000 fellow members* (via the Member Directory) and over 80,000 non-member Collabratec users worldwide!

✓ Spark discussions in interactive Community forums on hot topics such as Cyberethics, Smart Cities, IoT or AI; Many aligned with IEEE Societies

✓ Create your own small working groups for deep-dive brainstorming and planning

✓ Find or promote events, conferences and meetings

✓ Access integrated authoring tools & the IEEE AuthorLab community

PLUS MUCH MORE:
✓ Mentoring Options; Job Searching; Research & Document Library; and more!

Research Program for Detection and Destruction of Improvised Explosive Devices in the Framework of Humanitarian Operations in Colombia

JAN 29

Imagery explosive devices (IEDs) are unconventional bombs that cause thousands of casualties each year in different regions around the world. The peculiar characteristics of IEDs, namely their high variety and random nature of their components, make it difficult the use of classical demining techniques. The first part of this talk discusses the main findings of a long-term research program on the use of high power electromagnetics in humanitarian demining operations.
HOME: Your activity central point; Customize your Feed of Activities

PEOPLE: Find peers, colleagues and IEEE members, using robust filters

MY NETWORK: Your personal network of contacts that you are connected with

COMMUNITIES: Large forums aligned with IEEE Societies and hot areas of interest to share and discuss ideas

GROUPS: Smaller user-created networks for private or deep-dive collaboration

IEEE Mentoring Program
www.ieee.org/mentoring

Available to all members:
- IEEE members, Standards Association Volunteers, and Society Affiliates
- IEEE Collabratec® (CT) integration enables enhanced mentoring experience with:
  • Access to Profile information (location, memberships, interests, etc.)
  • Groups to facilitate mentoring partnerships: organize, share, and collaborate on content

Benefits of mentoring:
- Help guide fellow IEEE Members to aid in their professional development
- Further develop your leadership, management, and communication skills
- Build your professional network
- Learn new things by understanding another’s perspective
- Long distance mentoring
- Visit bit.ly/MentoringTipSheet for additional guidance
Collabratec® Communities – Find Your Home

▸ More than **100 communities** to participate in
  - By technical interests, professional interests, and geography.

▸ **IEEE Membership Forum community** open to all members:
  - Information about the many benefits of IEEE membership
  - Exclusive offers and opportunities
  - Real time announcements of events such as Webinars, Live Streaming on IEEE.tv and member-only Q & A sessions
  - Recognition of member achievements including grade elevation, awards, or media coverage
  - Access to IEEE Contact Center associates to answer general questions about IEEE Membership

▸ Network with more than **125,000 participants**

▸ Check out our [Knowledgebase](#) for answers to your questions
Collabratec® Members Only Privileges

- **Distinct professional identity**, through Member and grade badging

- **Exclusive communities** include IEEE Membership Forum, CareersConnect (USA and India), All Society Tech Forum, IEEE Young Professionals

- **Expanded Groups**, with IEEE members having the opportunity of 50 groups, with up to 300 participants per group (non-members @ 3 groups and 10 participants per group)

- **Mentoring program**

- **Exclusive privacy settings**, with ‘IEEE Member’ as a distinct visibility option

- **IEEE Member Directory**
  - Members-only searching criteria (major benefit to opt-in to)

Meetings and Events

▸ Use the Meetings and Events finder to find out what is going on in your local area:

https://meetings.vtools.ieee.org/meeting_view/index

- Search by your local Section
- Don’t see any meeting listed? Contact your local volunteer(s)
- Managed and updated by volunteers

▸ Find large events and conferences worldwide:

http://www.ieee.org/conferences_events/index.html

▸ Or use the Event Finder mobile app

- Search for an event by name, location, IEEE region, section, or chapter; or by the IEEE society or council sponsoring it
- Download the free app from the Apple App Store or Google Play.
Volunteering

Volunteering is personal to everyone and provides opportunities to:

- **CONNECT** with others of your profession; make new contacts.
- **NETWORK** with peers, technical experts.
- **CONTRIBUTE** your time to your field of interest in a prestigious organization.
- **GAIN** valuable management and leadership skills for your career.
- **EXPAND** your understanding of your chosen profession.
- **IMPROVE** the public perception and image of engineers.

www.ieee.org/volunteer
Society Memberships

www.ieee.org/societies

- Niche membership organizations within IEEE (39 of them) that represent specific technical or professional interests
- About 50% of IEEE members also belong to a Society
- Nearly all of IEEE conferences, publications, and standards development are sponsored and managed by IEEE’s technical Societies
- Societies support technical chapters that collaborate with your local IEEE Section
- Societies have their own publications, digital libraries, and conferences
Technical Community Membership

Join at no cost as an IEEE Member

- Variety of communities representing different interests, audiences, and participation requirements
  - Communities may be sponsored by one or several entities

- Student/Young Professional Oriented Communities

- Technical-oriented communities
  - Cloud Computing, Big Data, Bio, Blockchain, Transportation Electrification, IEEE 5G, formula Hybrid

- Geo-based communities
  - Organized around municipalities, with Sections serving as administrator; Open to all users of IEEE Collabratec™
