Computer Hardware Organizations
Innovate with IEEE Information

Whether you’re developing systems-on-a-chip, grid computing, parallel architecture or any other computer hardware technology, IEEE is your gateway to the most vital information in the industry today. With the intuitive IEEE Xplore® digital library, you’ll find the journal articles, conference proceedings, and standards needed to lead computer hardware innovation—and boost your company’s bottom line.

IEEE Information Drives Computer Hardware Patents
Today’s computer hardware corporations deliver new patented technologies at an ever-increasing pace, based on research that is at the forefront of the industry. Patent references to IEEE papers have increased 896% since 1997 and recent studies of the top patenting companies show that IEEE scientific and technical articles are cited over 3 times more often than any other scholarly or commercial publisher.

IEEE: the Top-Cited Publisher in Computing
IEEE is the top scientific and technical source with patent citations in:

**Essential IEEE Content in Computer Hardware Technology**
IEEE content remains crucial to the computer hardware industry—providing research in a wide variety of topics through the IEEE Xplore digital library.

IEEE: the Top-Cited Publisher in Computing
IEEE Leads Computer Hardware Technology

IEEE enables innovation as a leading developer and producer of content across a wide range of industries, from standards to conferences, eBooks, and eLearning courses for aspiring individuals and growing organizations. Below is a sampling of IEEE content.

Journals

— *IEEE Wireless Communications Magazine*— #1 in Computer Science, Hardware & Architecture
— *IEEE Transactions on Neural Networks & Learning Systems*— #2 in Computer Science, Hardware & Architecture
— *IEEE Network*— #4 in Computer Science, Hardware & Architecture
— *IEEE Transactions on Computational Intelligence and AI in Games*
— *IEEE Computer Architecture Letters*
— *IEEE Computer Graphics and Applications Magazine*
— *Computer Magazine*
— *IEEE Transactions on Computers*
— *IEEE Transactions on Dependable and Secure Computing*
— *IEEE Design and Test Magazine*
— *IEEE Intelligent Systems Magazine*
— *IEEE Transactions on Knowledge and Data Engineering*
— *IEEE Micro Magazine*
— *IEEE/ACM Transactions on Networking*

IEEE Publishes Top-Cited Computer Content

— 7 of the top 10 journals in Computer Science, Hardware & Architecture
— 17 of the top 20 journals in Telecommunications

Source: 2014 Thomson Reuters Journal Citation Reports, published June 2015

Conferences

IEEE Annual International Symposium on Field-Programmable Custom Computing Machines
IEEE Conference on Engineering of Complex Computer Systems
IEEE International Conference on Cloud Computing
IEEE International Conference on Computational Intelligence and Computing Research
IEEE Symposium on Security and Privacy
International Conference on Advances in Electronics and Micro-electronics
NASA/ESA Conference on Adaptive Hardware and Systems

Standards

1413-2010 IEEE Standard Framework for Reliability Prediction of Hardware
1667-2009 IEEE Standard for Authentication in Host Attachments of Transient Storage Devices
1364-2005 IEEE Standard for Verilog Hardware Description Language
