IEEE Publishing:
connecting brilliant minds

Advancing technology for IEEE authors, editors and readers
www.ieee.org/publish
Publish with IEEE and join the leaders of tomorrow’s technology who publish ground-breaking research.

IEEE Publishing makes the exchange of technical knowledge possible, with integrity, accuracy, the highest quality and the greatest impact. IEEE is connecting brilliant minds.

For the most current information on IEEE patents, visit www.ieee.org/patentcitation

**Innovation Evolution**

Our readers find the origin of a technology in a conference paper, see it mature in a journal article, get an overview in our magazine articles or books and find the industry standards necessary for technology implementation. Over 150 periodicals and 1,200 conferences let authors choose the best forum for their work.

**Exceptional Content**

IEEE is by far the most-cited publisher in new patents, according to recent studies by 1790 Analytics LLC. IEEE journals and conference proceedings received more than 127,000 patent citations—nearly three times the number of citations of any other publisher.

**Tools for Authors**

- **Reference Validation**
  - This automated tool allows you to validate your references during the authoring process. It provides corrections as needed by checking your references against the IEEE and Crossref databases to ensure successful online linking through search functions like Google Scholar, scitopia.org and IEEE Xplore®.

- **Graphics Checking**
  - This easy-to-use tool enables you to check your graphics files before they are submitted, assisting in the elimination of common problems like inadequate image resolution by providing step-by-step instructions on how to improve your images.

- **ScholarOne Manuscripts®**
  - IEEE uses ScholarOne Manuscripts for Web-based manuscript submission, peer review and tracking. The system allows you to submit your manuscript electronically, speeding up the review process and shortening the time between submission and publication. ScholarOne Manuscripts balances the needs of the editorial office for comprehensive information gathering with an author’s desire to submit quickly.

- **Author Gateway**
  - The Gateway is your direct connection to the IEEE publishing process. Here you will find useful information regarding your articles in production, communicate with IEEE staff and editors, and learn about copyrights, permissions and other policies.

- **Electronic Copyright Form**
  - Available in eight languages, this time-saving form makes copyright transfer an effortless, completely electronic process.

- **Electronic Copyright Form**
  - Available in eight languages, this time-saving form makes copyright transfer an effortless, completely electronic process.

**Author ADVANTAGES**

From manuscript preparation to publication, IEEE Publishing assists you every step of the way. As an IEEE journal or conference author, you have access to resources that make the submission process convenient and easy.

**Author Gateway**

The Gateway is your direct connection to the IEEE publishing process. Here you will find useful information regarding your articles in production, communicate with IEEE staff and editors, and learn about copyrights, permissions and other policies.

**ScholarOne Manuscripts®**

IEEE uses ScholarOne Manuscripts for Web-based manuscript submission, peer review and tracking. The system allows you to submit your manuscript electronically, speeding up the review process and shortening the time between submission and publication. ScholarOne Manuscripts balances the needs of the editorial office for comprehensive information gathering with an author’s desire to submit quickly.
The IEEE publication process is constantly evolving based on the feedback of our authors, reviewers and editors. With this information, we are able to develop and enhance processes that focus on your needs and preferences.

Because of your insight, we have a better understanding of the process, enabling us to provide a convenient and comprehensive all digital end-to-end publishing platform.

**EDITORIAL ADVANTAGES**

IEEE Publishing connects brilliant minds like yours with other leading voices in technology specialties. Peer review, CrossRef and other tools help manage your workflow and make it easy to collaborate, reference and deliver your research to readers and researchers.

### Peer Review

The peer review process is designed to enhance the quality of every article submitted to and published by IEEE.

**Benefits of Peer Review**

The peer review process benefits the author, editor and the reader. Journal, magazine and conference papers undergo a thorough peer review process before acceptance for publication or presentation, ensuring only the highest quality information is published or presented at conferences.

The author benefits from the feedback received, while the peer reviewer is able to further develop his or her own skills. The reader or conference attendee is assured the research published is strong and credible.

### Page Composition

IEEE Publishing organizes your article in the appropriate format for inclusion in publications.

**CrossRef**

CrossRef connects authors. Digital Object Identifiers (DOIs) are tagged to article metadata, allowing researchers to click on a reference citation and link directly to the cited content from one IEEE journal to another or from an outside journal into IEEE Xplore.

**Indexing**

The necessary metadata for your article is generated, using the IEEE Thesaurus, ensuring it is easy to find within IEEE Xplore. The metadata is indexed by major reference services such as Inspec, CiteSeer, Compendex, Medline and others.

"Publishing with the IEEE is a convenient way for conveying novel ideas and findings to the scientific community because they are quick in editing and publishing."

— Laith Al-Mashat, RMIT University, Melbourne

"Publishing with the IEEE is fast and easy, and the final product is exceptional."

— Randy Haupt, Penn State

"Publishing with the IEEE assures me that the final product will be both professional and timely."

— steve Kay, University of Rhode Island

IEEE’s Principles of Scholarly Publishing

IEEE’s core purpose is to foster technological innovation and excellence for the benefit of humanity. As the world’s leading professional association for the advancement of technology, we provide peer-reviewed and unbiased information that helps enhance the quality of life for all people.

IEEE is committed to providing the world with convenient, timely and affordable access to scholarly and professional publications and to wide dissemination of research results. Consistent with this commitment, IEEE grants to its authors the right to post their own content for free public access on the author’s own Web site or their employer’s institutional repository.

The field of scholarly publishing continues to experience breathtakingly rapid change. IEEE believes that in order to successfully carry out its publishing mission it will be increasingly important to maintain a clear focus on core values and principles of operation.
