Aims and Scope of the Series
This series is uniquely positioned to meet the communication needs for the practicing, experienced engineer in industry, research, or academia. After finding solutions to projects or problems, the second most important activity of an engineer is to communicate findings, results, advances, setbacks, and new ideas. From seasoned practicing engineers who could use a refresher on how to use the newest of communication technologies, to graduate students looking to publish a first paper, to entrepreneurs writing patents on an exciting new product, to faculty and administrators navigating ABET visits, the hope is that this series can assist. PCS proposed this series in a response to requests by IEEE members for a set of materials that meets their specific professional needs.

Titles in this Series

Series Editor
Ryan Boettger
Associate Professor/Assistant Chair
Department of Technical Communication
University of North Texas
Ryan.Boettger@unt.edu

Ryan Boettger is an associate professor and assistant chair in the Department of Technical Communication at the University of North Texas. He received his PhD and MA in Technical Communication and Rhetoric from Texas Tech University and a graduate certificate in Teaching English to Speakers of Other Languages (TESOL) from Pennsylvania State University.

His research areas include curriculum development and assessment, content analysis, technical editing, and data-driven learning. He is currently funded by the National Science Foundation in the area of STEM education.

Professionally, Dr. Boettger has worked for the Texas Army National Guard where he edited natural resource, wildland fire, and cultural resource management plans for five army bases. Prior to joining UNT, he served as the Managing Director of Grant Proposal and Program Development for the Laura W. Bush Institute for Women's Health at the Texas Tech University Health Sciences Center.

He is the former deputy editor-in-chief for IEEE Transactions on Professional Communication, and a current member of the IEEE Professional Communication Society.
and the Society for Technical Communication.

For more information on this series and on writing a book for Wiley-IEEE Press, please contact Ryan Boettger at Ryan.Boettger@unt.edu or our Wiley acquisitions editor, Mary Hatcher at pressbooks@ieee.org. Please follow this link for more information on Proposal form and Author instructions.
