

Graphical Abstract Description and Specifications

To enhance the appearance of your article on IEEE Xplore®, a feature known as the Graphical Abstract can be used. The Graphical Abstract should provide a visual summary of the findings of the article by means of an image, animation, movie, or audio clip.

NOTE: The graphical Abstract is technical content, and authors **must** provide it for peer review during the article submission process.

The Graphical Abstract must be a concise, illustrative reflection of the content of your article. It should:

- Be a visual or audio highlight of the main point of your article. It should represent a microcosm of the full article.
- Include a caption or explanatory note about the visual or audio highlight.
- Follow the requirements for submitting multimedia as provided at:
<http://www.ieee.org/documents/MMdocumentation.pdf>.

When preparing the Graphical Abstract, the following general specifications should be adhered to:
